## Announcing the Relocation of Our London Clinic

After many years of operation, our practice's London location will be closing as of September 1, 2021. This location has served us well, and based on our future plans, consolidating this office with our main location is appropriate. The London providers and supporting staff will be available for appointments at **1136 Monarch Street, Lexington, KY, 40513** and **504 Tenikat Street, Danville, KY 40422** to continue to provide you with the same level of excellent care. For your convenience, telemedicine visits are available as well.

**If you are on allergy immunotherapy, we will continue to make your allergy extracts and send the vials to your home so you can take them to the medical facility of your choice who will administer your injections.** We will see you in person at our Lexington or Danville location or via telemedicine for your required six-month checkups.

With this relocation, we are committed in keeping your medical records confidential. A copy can be transferred to another doctor or released to you or another person you designate only through your permission. If you choose to see another provider, please sign the enclosed authorization form and return it to our office as soon as possible so we may transfer your records to your new provider.

We have greatly valued our relationship and thank you for your loyalty and friendship over the years. Best wishes for your future health and we hope to continue your care in our Lexington and/or Danville locations.

Sincerely,

Dr. Arun Kadambi and staff  
Allergy, Asthma and Sinus Center
